

UNIVERSITY LABORATORY HIGH SCHOOL TEXTBOOK AND SUPPLIES REQUIREMENT LISTS 2016-2017

Students are required to buy all textbooks and supplies listed for courses they are registered in unless otherwise indicated. Textbooks for University Laboratory High School classes are sold at the Illini Union Book Store at 715 South Wright in Champaign. Ask for the Uni High section. Some of the textbooks are only available from online sources such as Amazon. The Illini Union Book Store will indicate this for any books that they cannot stock.

General supplies such as pens, pencils, highlighters, paper, Kleenex, scotch tape, masking tape, scissors, magic markers, glue, index cards, etc. will not be provided by the office. Please provide your student(s) with these items.

Each student is urged to have his own collegiate dictionary. Either of the following is recommended: Webster's Collegiate Dictionary or American College Dictionary.

Computer Science

Mathematics

A graphing calculator (TI-84 preferred) will be required for all Uni math classes. Students who purchase a Texas Instruments calculator are requested to turn in the “TI Technology Rewards Program” points block from the calculator packaging (the department can redeem points for TI products for classroom use). Students in Math 1/Math 2/Math 3 will need a sturdy compass, a sturdy ruler, and a sturdy protractor (“sturdy” means they’ll hold up under backpack conditions). Some stores sell “math kits” that may work, but sometimes the compass in those kits doesn’t work well, and kits with plastic cases often wind up broken. Microsoft Excel is required for all students (other spreadsheet program files will not be acceptable substitutions). All students will need a word processor that can handle math symbols; any document files submitted must be submitted either as Microsoft Word files or as .pdf files (other word processor program files will not be acceptable substitutions). Student computers must have GeoGebra downloaded and installed for off-line use, and students must be able to save GeoGebra files for file transfer purposes. All students must have Microsoft OneNote installed on their computers, available for both online and offline use.
